

Please make sure that you have given Regional Family Medicine your email address.

This will allow Regional Family Medicine to send you an email especially for helping you set up your portal. (*You can only have one portal per email address*).

You may wish to go with the info below. We have found that the app is much friendlier than the website.

Please be sure to save the website to your favorites if you do not wish to use the app, as you will ALWAYS need to access your portal from the website or the APP directly.

Here is the Web address for our new patient portal if you would like to set up an app on your phone or tablet/device. NOTE: The access code below is not the correct one for our portal. **Please search our Portal by zip code, 72653**

https://mycw36.eclinicalweb.com/portal4046/jsp/100mp/login_otp.jsp

At this time we are not doing the online appointment scheduling but you will be able to get into your account.
